MEDICAL PRODUCTS CO.,LTD

DISPOSABLE CARE KIT

PICC Puncture Care Kit

Product Composition

- Wrapping Paper (Blue Coated Paper)
- Wound Closure
- Nonwoven Gauzes
- Transparent Dressing
- Metal Tweezer
- Metal Scissor
- Cotton Balls
- Latex Gloves
- Tray
- Blue Gown
- Large Blue Towel
- Blue Towel
- Wrapping Paper
- Opening Blue Towel
- Cotton Balls
- Plastic Tweezer
- Sheet
- Tourniquet
- Paper Ruler
- Tray

PICC Maintenance Kit

Product Composition

- Wrapping Paper
- Drape
- Transparent Dressing
- Latex Gloves
- Povidone-Iodine Prep Swab
- Alcohol Swab
- Wound Closure
- Non-woven Gauze
- Alcohol Prep Pad

Skin Prep Kit

Product Composition

- Prep Razors
- Gauzes
- PE Gloves
- Sterilizing Brush
- Drape
- Povidone-Iodine Cotton Ball
- Plastic Tweezers
- Tray
- Soap Liquid

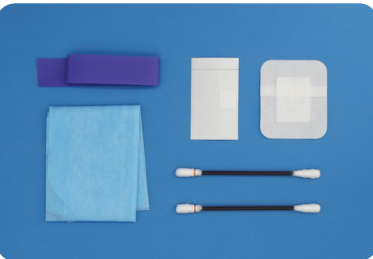

IV Start Kit

Product Composition

- Tourniquet
- Povidone-Iodine Prep Swabs
- Dry Cotton Swabs
- Drape
- Infusion Paste
- Transparent Dressing

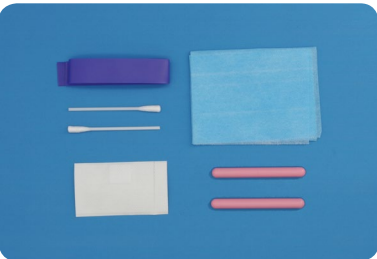

Blood Collection Kit

Product Composition

- Tourniquet
- Povidone-Iodine Prep Swabs
- Drape
- Infusion Paste
- Adhesive Wound Dressing

Infusion Care Kit

Product Composition

- Tourniquet
- Povidone-Iodine Prep Swabs
- Dry Cotton Swabs
- Drape
- Infusion Paste

Dressing Change Kit

Product Composition

- Non-woven Gauzes
- Povidone-Iodine Cotton Balls
- Placstic Tweezers
- PE Gloves
- Tray

Dialysis Care Kit

Product Composition

- Drape
- Latex Gloves
- Povidone-Iodine Prep Swabs
- Glue strip 3*15
- Glue strip 4*15
- Cotton Rolls
- Tray
- Band Aid

CATHETER FIXATION DEVICE

Indwelling Needle Fixation Device

Product composition: Release paper, PU film coated non-woven fabric, Loop, Velcro
Usage: For the fixation of catheters, such as indwelling needles, epidural catheters, central venous catheters, etc.
Advantages: Fixed firmly, reduced patient’s pain and convenient for clinical operation, prevention of catheter detachment and movement, reducing the incidence of related complications and reducing patient suffering.

PICC/CVC Catheter Fixation Device

Product composition: Release paper, PU film applied non-woven fabric, Loop, Velcro.
Usage: Suitable for catheter fixation, drainage tube and other catheter fixation.
Advantages: Fixed firmly, reduced patient’s pain and convenient for clinical operation, prevention of catheter detachment and movement, reducing the incidence of related complications and reducing patient suffering.

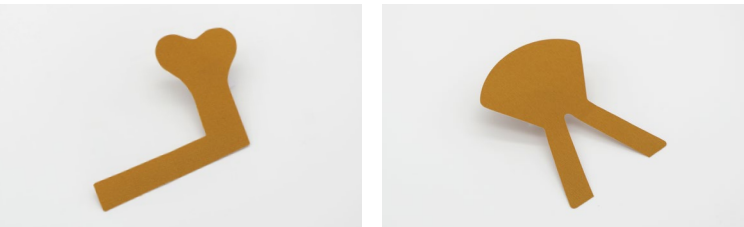

CATHETER FIXATION DEVICE

Urethral Catheter Fixation Device

Product composition: Release paper, PU film coated non-woven fabric,Loop, Velcro.
Usage: Suitable for the urethral catheters fixation , drainage tube and other catheters fixation.
Advantages: Fixed firmly, reduced patient’s pain and convenient for clinical operation, prevention of catheter detachment and movement, reducing the incidence of related complications and reducing patient suffering.

Nasogastric Tube Fixation Device

Product composition: Release paper, skin color non-woven fabric.
Usage: Suitable for the fixation of catheters such as nasogastric tubes, gastric tubes, and oxygen tubes.

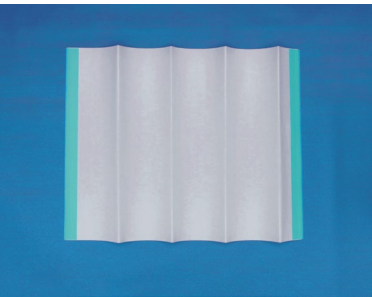

Advantages: Skin color, beautiful appearance, fixed firmly, reduced patient’s pain and convenient for clinical operation, prevention of catheter detachment and movement, reducing the incidence of related complications and reducing patient suffering.

OTHER SERIES

Surgical Tape

Product Usage: Fixing of all kinds of transfer needle tubing and line and of all kinds of dressing.

Surgical Film

Product Usage: Protection of operated parts before and during the operation and prevention of wound infection.

Tourniquet

Product Usage: Used for clinical infusion, draw blood in blood center.
